Education

2013-2016: Bachelor of Computer Science, Goldsmiths, London.

Weighted Average Mark: 80.93%

2008-2012: Bachelor of Arts (Politics Major), UWA, Nedlands.

Weighted Average Mark: 67.25%

2009 – 2010: Bachelor of Law, UWA, Nedlands.

Final Year High School TER: 92.8

Skills

Programming Languages

- Java
- HTML, CSS, and JavaScript
- MySQL
- Processing Programming Language
- Arduino Development Language

Other

- Hardware Experience: I assembled a card reader with Arduino, have worked with the Raspberry Pi and assembled my Computer myself.
- Writing: I have maintained several blogs and extended works of fiction.
- Troubleshooting: Patient and calm, good at breaking down problems into their component parts
- Capable Team worker: Lots of experience working with groups in my Degree and Jobs

General Experience

- I spent six weeks as a volunteer with an organisation in Cambodia in December 2010 through to January 2011.
- In 2010 I completed a three-month, 5,000km, solo bicycle trip across Australia, cycling from Perth to Sydney via Adelaide and Melbourne. This gave me great experience in communicating with people and dealing with many different situations and managing all sorts of problems.
- I have travelled extensively, visiting Japan, Thailand, Cambodia, Vietnam, Tanzania, South Africa, Germany, Italy, France, Belgium, Spain, England and North America.
- I was a Committee Member (Fresher Representative) for UNISFA (the University Science Fiction Association) in 2008
- I was a Trusted Member (able to receive money and keep the clubroom open) of UNISFA from 2009-2011
- I was a Member of the School Debating Society for 3 years

Interests

I am fascinated by the potential that digital technology holds for our society. I am studying computer science because I want to be part of great changes our world currently faces. I love gaming and a core part of my reason to study my degree is to write and programme games of my own. I also love writing, reading, drawing and bicycling.
